

Water for All: Conserve, Value, Enjoy

1. Position of water mains and boundary lines of water catchment indicated on plan are approximate. There may be water mains of which there are no record.
2. Contractors are to carry out pipe detection work prior to commencement of earthworks. Trial holes must be dug to ascertain actual location.
3. Steps must be taken to prevent damage to existing water mains. Contractors are liable for damage to PUB water mains.
4. Please contact Water Service & Operation Centre, Tel No. 62824344 immediately to attend to main leaks.

Type Of Water Mains

PUB Water Mains		Dia	
NEWater Mains		NW - Dia	
Industrial Water Mains		IW - Dia	
Raw Water Mains		RW - Dia
