

Our Ref: SLA/SVY 161-2003

Date: 4 Apr 2005

To : All Registered Surveyors

Dear Sirs / Madams

CS NOTICE : TYPE 2 COORDINATES ON CP FOR BALANCE LOT

Presently, the values of all coordinates are shown on the CP. For a large balance lot, normally many boundary marks are shown with type 2D coordinates as illustrated at Appendix A.

2 Following feedback from registered surveyors, you need not show the type 2D coordinates when an existing balance lot is subdivided to excise a small plot from it as shown at Appendix B. However, the requirement to show coordinates of surveyed lots in the .SVY file in the disk to be submitted remains the same.

3 This new requirement of not showing type 2D coordinates on CP for balance lot will take effect on 18.4.2005.

4 Please let me know if you have any clarification.

5 Thank you.
