Date: 01 June 2006

To: All Registered Surveyors

Dear Sirs / Madams

**CS NOTICE: CHANGE IN FILE FORMAT IN RT SUBMISSION**

Please refer to Appendix E mentioned in section 2.7 of the CS Directive pertaining to the preparation and submission of RT Plan. This is to notify you that the <job>.OUT file format to be submitted with the RT plan through E-transmission is to be replaced by <job>.svy file (Result data file).

2. The reason for the change is to eliminate too many file format. In RT job, you are only required to set-up the co-ordinates section, lot description section and address section(if applicable) in .svy file. A sample of the file is attached below.
3. This requirement will come into effect 5 June 2006. For current jobs which you have already set-up in .OUT file and in the process of submitting, we will accept the job.

RT55555. svy
