CS CIRCULAR NO. 5/2011

To: All Registered Surveyors

NOT REQUIRED TO SHOW BALANCE LOT COMPILATION ON SKETCH (SK)

At present, a cadastral survey for all balance lots created consequent to excision of land by the Government or statutory bodies in the public interest, or for State Land balance lots created consequent to alienation of land by the Government, it is required to show the balance lot(s) compilation on the SK.

2 We have accepted the idea of one of our I-cube teams to do away with the balance lot(s) compilation on SK where this information are already shown on Certified Plan (CP). This is in line with our review to remove redundancies and duplications so as to improve survey works and processes. Hence, we are pleased to inform you that there is no need to show balance lot(s) compilation on SK. However, you are required to insert a reference note below the balance lot number(s). See sample in Annex A.

3 The above new practice is implemented with immediate effect. For ongoing jobs in which the balance lot(s) information has already been put up in the SK, you can continue to submit them as they are.

4 We hope and would be pleased that this improvement can benefit you.

A handwritten signature in black ink, appearing to read 'Leong Kai Weng', is written over a light blue circular stamp. The signature is fluid and cursive.
